EDII leads the largest study on entrepreneurial dynamics

Ahmedabad: The Global Entrepreneurship Monitor (GEM) Survey is the largest annual study of entrepreneurial dynamics in the world. Entrepreneurship Development Institute of India (EDII), Ahmedabad leads the GEM India Survey with Dr. Sunil Shukla, Director General, EDII as the National Team Leader and the Lead Author of the Report. The GEM India 2020-21 report which was released recently, explains the key aspects of entrepreneurship among Indians by measuring their attitudes, activities and aspirations. The findings of the report provide the policy makers a foundation for reviewing the current and prospective policies. The major findings and recommendations for policy making are appropriately highlighted. The report has used a sample survey of 3,317 adults and national Level Experts.

The nationwide survey on entrepreneurial dynamics carried out by the Entrepreneurship Development Institute of India (EDII) provides that 82 per

cent of the population believes that there is a good opportunity to start a business in their area despite the hardships caused by the COVID-19 pandemic.

The Global Entrepreneurship Monitor (GEM) Report 2020-21 also provides that 82 per cent of youngsters believe that they have the required skills and knowledge to start a business. Out of 47 economies, India ranks 3rd for perceived opportunities.

The report also provides insights into the impact of the pandemic on the entrepreneurial ecosystem in the country. It provides that the fear of failure among youth has increased by 1 per cent, i.e. from 56 % in 2019-20 to 57 per cent in 2020-21. It also suggests that entrepreneurial intentions have declined from 33.3 per cent in 2019-20 to 20.31 per cent in 2020-21.

Similarly, total early-stage entrepreneurial activity (TEA) was also severely affected due to the pandemic and declined to 5.34 per cent in 2020-21 compared to 15 per cent in the previous year.
